## Company Profile

Exanten has been established in 2010 to become a multi-faceted company over a period of time supplying the mining and corporate industries. Exanten was created as a marketing distributor, importer and service provider. It is Exanten's aim to provide a variety of dependable and competitive products and services to ensure customer satisfaction.

**Exanten Mining & Corporate Supplies** We supply a wide variety of products for the mining industry. We also do world wide product sourcing. We have imported a number of products for our clients. If you have a unique or customized order, we can source it locally or internationally. We do office furniture and steel furniture for example lockers, filing cabinets, just to name a few. We can also assist in signage and printing.

- |                             |                    |                              |
